Claim Objections

1. Claim 17 is objected to because of the following informalities: line 1, "17" should be changed to ---15---. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, lines 11-12, it seems "a data in bus" should enable data to be transferred from "the network side block to the system side block", in order to be consistent with the specification, which defines "IN" in terms of data moving in from the network, see page 9, line 5, and "OUT" in terms of data moving out to the network.

Regarding claim 7, it seems "a third multiplexor that provides multiplexing of a message out data bus" should enable a transfer of message data from "the system side block to said at least two network side blocks" in order to be consistent with to the specification, which defines "IN" in term of data moving page 9, line 5, and "OUT" in term of data moving out to the network.

Regarding claim 7, line 15, "said message data" lacks antecedent basis.

Art Unit: 2665

Regarding claim 15, the language of the claim refers to figure 5, however, it seems that the three steps, from lines 10-16, are not a part of figure 5. It is unclear what is intended to be the claimed limitation by reciting those three steps.

Claims 1-6, 8-14, 16-2

Allowable Subject Matter

4. Claims 1, 7 and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
